KISS ME MASCARA

This dinky mascara is a Japanese bestseller, and has been enhancing Oriental eyes for some 20 years. It's now Ariane's No 1 mascara. "I love it," she enthuses, "because it adds volume and length, not by painting the lashes, but rather by forming a tiny tube around every lash. It won't irritate sensitive eyes, and, even though it's waterproof, it won't dry out your lashes. You can run in it, swim in it, perspire in it – and it won't smudge or wear away. To remove, simply use warm water. Your lashes appear in better condition afterwards."
