

# DERMASCOPE

The Encino  
& Spa 7

June 2002  
Volume XXVII No. 6

## BlinC, Inc.

If you are tired of runny mascara or avoid using it because you wear contact lenses and dislike having to use an eye makeup remover, then it's time to try Kiss Me Mascara.

Miss Me Mascara is applied just like traditional mascara, but unlike the others, Kiss

Me's unique formulation is not oil-based paint. Rather than painting the lashes, Kiss Me Mascara forms a tiny, water-resistant "tube" around each lash as it sets. Since it is not a paint-based mascara, Kiss Me does not run, smear or smudge even when it is exposed to sweat, tears, or rain. Best of all, Kiss Me is simple to remove. All that is needed is warm water and gentle fingertip pressure and the "tubes" actually slide off the lashes without leaving any dark circles or residues behind. NO eye makeup remover or soap is ever needed!

There's no longer a need to compromise between look, hold and ease of removal.

For more information, please call 877-4KISSME, or visit their website at [www.BlinCnc.com](http://www.BlinCnc.com). ■
