★ YOU'RE off on holiday ... but which mascara do you go for – one offering volume, curl power or waterproofing?

A new product on the market aims to offer all three. Kiss Me Mascara, the mascara favoured by stars such as Lucy Liu, Jennifer Lopez and Cameron Diaz works because it forms tiny water-resistant "tubes" around your lashes, giving oodles of volume and strength.

Because it is not oil based, it will not smudge, run, clump or flake. So simply apply before you head to the beach and at the end of the day, you'll still be left with perfect lashes. Best of all, it comes off simply by applying a little pressure and warm water.

Priced at £15.99, it's currently only available by mail order (simply call 020 7460 0166) or go to website

www.kissmemascara.co.uk to get your hands on this holiday essential.
