

FAMOUS SALONS PRESENTS

SHORT & EASY HairStyles™

THICK, SEXY LASHES

We all know how exasperating it is to apply mascara...only to have it surreptitiously slide off by the middle of the day, leaving us not with long, luscious lashes, but with smeared raccoon eyes instead! And then, getting that same mascara off is always a chore...eye makeup remover can be harsh on the sensitive skin around your eyes. Problem solved! Blinc, Inc. introduces Kiss Me Mascara, which is a traditional mascara with a unique new formula. Get this...instead of painting the product onto your lashes, Kiss Me Mascara actually forms an individual protective tube around each lash as it dries. Since it is not an oil-based formula, Kiss Me Mascara does not run, smear or smudge!

It gets even better! Kiss Me Mascara is very easy to remove...when you rinse your face with warm water, all you have to do is apply a little bit of extra pressure to your lashes, and the mascara will slide right off. No irritating cleansers or soaps needed here, which means no more irritated eyes!

For more information, or to order Kiss Me Mascara, visit www.blinc-inc.com on the Web or call (877) 4KISSME.
